GAMES AND SIMULATIONS

1002 WHITE HOLES ($2)
Seek out and destroy the elusive white holes in this excellent maze game.

1005 MOTOCROSS ($2)
You are behind the wheel as you attempt to maneuver your car around a difficult track to the finish line.

1006 ELECTRONIC SIMON ($3)
A simulation of the famed electronic Simon game. This challenging game includes variable skill levels.

1009 ARTILLERY ($2)
Can you defeat the computer? If you play your strategy right in this fine graphics and animation game, you have an excellent chance.

1010 LAST ROBOT ($2)
You play the computer in this challenging graphics simulation. Pay close heed to your strategy and logic. A real brain buster.

1024 SLOT MACHINE ($3)
Las Vegas odds are made to be beaten. Will you be the lucky one?

1027 GOING HOME ($2)
Can you beat the computer home? Try this excellent strategy game to see if you can outwit the superior thought processes of your computer.

1028 SCORCHER ($2)
Attempt to scorch the incredibly agile monsters that are trying to devour you by giving them a shocking surprise on electrical fence posts.

1029 SUPER CHECKERS ($3)
An excellent version of the legendary game. Graphics and speed are the highlights of this classic thought provoking game.

1032 SPACE SCOUT ($3)
Maneuver your spacecraft through the asteroid belt while picking up the precious fuel modules. The ultimate object of this well written space game is to rendezvous with the mothership.

1037 YAHTZEE ($3)
Four player capability is included in this version of the popular Milton Bradely game. Thus more fun for the whole family.

1038 DRAGON MAZE ($3)
Avoid the wily dragon as you travel down the tunnels of his air. Concentration is of utmost importance in this challenging maze game.

1044 INDIAN ($2)
This program is much more difficult than it seems at first. Concentration skills and strategy should help you avoid getting scalped.

1050 POKER ($3)
Five card draw has never been more challenging. Great graphics are the name of the game as the computer deals out loads of fun.

1051 SUPER LIFE ($2)
Thought provoking program involving the birth and death of living communities. An interesting adaptation to the famous program 'Life'.

1056 NUMBERS AWAY ($2)
An excellent simulation of the TV game show Gambit. Fun for the whole family!

1058 BONKERS ($2)
Hours of fun are provided by this game that will definitely drive you up the wall.

1059 SPACE PATROL ($2)
Use your laser cannon to destroy enemy warships while avoiding their torpedoes and mines.

1061 LASER STATION ($2)
Your station is surrounded in all four directions by enemy warships. You must try to blast these intruders with your pulsar phaser.

1065 BLACK BOX ($2)
Find the atoms in the black box by shooting rays. A great challenge for memory buffs.

1070 IMPERIAL LANDER ($3)
In this super graphics program, you must soft land on the planet Zira and get back to your mothership to complete the mission.

1091 LUNAR LANDER ($3)
Land the lunar module on the surface of the moon without destroying your craft.

1093 ACEY-DUCEY ($2)
Great graphics in this game of choice. Can you get the cards that are in-between the computer's?

1094 3D TIC TAC TOE ($3)
Play this unique version of that century-old game. Three levels triple the thinking. For one or two players.

1096 KNIGHTS TOUR ($2)
Land on as many squares as possible, using any moves the knight is allowed in chess. But be careful, you can't land on a space you previously visited.

1123 STAR ($2,CH)
Guess the right number and be rewarded with stars from above. Great for the younger set.

1127 PUZZLE 15 ($3)
In this strategy game, you must re-arrange 15 tiles in sequential order.

1128 LEXICALITY ($2)
A word building game for up to four players. The object is to build words with as many letters as possible.

1131 INBETWEEN ($2)
The computer deals out the famous card game inbetween in this excellent graphics simulation.

1137 ROULETTE ($2)
Gamble away at this game of chance. The betting is based on the Las Vegas system.

1140 COLOR TREK ($2)
Nice graphics are featured in this space game adaptation where you must destroy the Klingons.

1144 ANT WARS ($2)
Test your instinctive survival techniques in this deadly confrontation with killer ants.

1151 BACCARAT ($3)
This is the Las Vegas style high stakes game. Our special version is one of the best.

1156 DOG RACE ($2)
Watch the dogs race towards the finish line. Win, place or show options and one to five players.

1165 KING ($2)
Rule your kingdom with wisdom and be richly rewarded. If you fail, the conspirators will certainly kill you. A rewarding strategy game for the whole family.

1169 RUBIK'S CUBE ($2)
Use your computer to manipulate the Rubik's Cube. Set the world's record.

1170 BLOCK BUSTER ($2)
Break-out type games are always a must for any computer system.

1171 CONCENTRATION ($2)
This 48 square concentration game allows you to reveal the letters and match them. Four skill levels are provided.

1175 BLACKJACK ($3)
Two great versions of the famous game, using Las Vegas rules. Color graphics makes playing a pleasure.

1177 MASTERMIND ($3)
Mastermind the color schemes in this fascinating mind boggler.

1201 ANIMAL ($2)
The computer stores information and learns pattern recognition through a technique of artificial intelligence.

1202 SPANISH BATTLESHIP ($2)
Spanish version of the popular Battleship game. Very well written and an exceptional aid for learning Spanish.

1203 AWARI ($3)
The computer challenges you to the ancient African strategy game.

1211 DOMINOES ($2)
The computer is the master at Dominoes. Maybe you can outdo the champion if your skill is up to par.

1213 ISOLATE ($2)
In order to come out victorious in this famous board game, your concentration and skill will have to be at its peak.

1218 KISMET ($3)
Up to four players can participate in this Yahtzee type game with dazzling colors. Family fun!

1224 PICK UP STICKS ($2)
You and the computer compete in the famous game of pick-up sticks.

1226 BUILD A BUG ($2,CH)
Who can master the mystery of bug building first, you or the computer?

1227 RUSSIAN ROULETTE ($3)
Compete to see who will stay alive the longest. For some, losing is just as much fun as winning. Excellent party game.

1230 CRAPS ($3)
Las Vegas Craps are at your fingertips with this colorful version of the exciting casino game.

1233 HANGMAN ($2)
Specialized graphics in this version of the famous game. Includes a large built-in vocabulary and expandability.

1238 CASTLE ESCAPE ($3)
Adventure through the halls of an old abandoned castle in order to survive. Features fascinating 3-dimensional perspective to allow you to see down hallways.

1264 MOTORCYCLE JUMP ($2)
How many buses can you leap? Try your hand at the perils of motorcycle jumping with this daring simulation. Hold on to your helmet, rev up and go!

1276 HACKSAW CANYON ($2)
In order to graduate and earn your wings you must accurately blow up as many boulders with the fewest misses. Smashing graphics!

1291 ALLEY CRAPS ($2)
This version of craps is more of the type played in the streets. A breath of fresh air from the conventional Las Vegas style.

1312 TIC TAC TOE ($2)
Using Philadelphia rules, the second player can win with a tie, thus providing a more challenging game. Play the computer or a friend.

1315 BRIDGE GUARD ($3)
A novel and unique game concept in which you try to save the bridge by allowing the meteors to fall harmlessly into the river.

1316 KRAZY KOALA ($3)
Climb the ladder, grab fruit, avoid the flying birds and

falling rocks. You control the cute Koala which must save the baby. Fun game for kids.

1325 COLOR LOGIC ($3)

A logic game in which you and the computer compete to figure out each others secret color scheme.

1327 MONSTER MASH ($2)

Run over as many monsters as possible with your car to gain points.

1334 PENTI ($2)

A two player game to place five markers in a row on the grid, or capture five of your opponents markers. It's a clever thoughtful game that will give you hours of fun.

1335 VICIOUS CIRCLE ($2)

Avoid the circles and clear the grid in this excellent game. You may use either joysticks or the keyboard. Bonus points allow you to continue play.

1336 SUPER CUBE ($2)

A super challenging game in which you must get to a certain position in the cube without getting hit by a mine, or making a mistake. Concentration and vision are important.

1339 KNIGHTS ($2)

Compete with the computer in the exciting logic game of Knights and Numbskulls. Better watch out, the computer will leave you a numskull!

1340 HAT IN THE RING ($3)

This two player game simulating a Presidential election gets you into the political mood. Media exposure and fund raising are important!

1342 ELECTRIC COMPANY ($2)

A very challenging simulation in which you must operate an electric company. Demonstrate your business abilities to build the worlds greatest energy empire.

1347 CIRCUS ($2)

You are a clown trying to get as many balloons as you can. Another great one for the younger set.

1349 ZENER CARD ($2)

Ever wonder if you have E.S.P.? Well here's your chance to find out.

1350 ICE CAVES ($3)

Like to figure adventures out? Find your way out of an ice cave with clues provided in the fewest number of moves as possible.

1351 ICBM ATTACK ($2)

Warning! Warning! Incoming missiles. Commander X, you must defend your city against these deadly projectiles.

1352 ZAGON ATTACK ($3)

The ZAGONS have taken over the Galaxy. Your only hope is to destroy the Zagon robot commander.

1364 HAMURABI ($2)

An enhanced version of the classic game in which you attempt to rule a kingdom wisely.

1366 FLYSWATTER ($3)

You are a spider trapped in a giant world and surrounded by flies who are your favorite prey. You and your fellow spiders must devour as many flies as possible.

1375 BUNKER ($3)

This exciting action war game is highlighted by special graphics and sound effects. Destroy the enemy bunkers as rapidly as possible and be a hero.

1381 KONG ($3)

This superbly written program, which is derived from the well known arcade game will bring you many hours of amusement.

1383 ARTILLERY BATTLE ($2)

An exciting game for two players in which you may test your skills as commander of an artillery multitude. Enter the correct amount of powder and the accurate force of velocity to dispatch the shells.

1389 PEG SOLITAIRE ($3)

The object of this classic game is to clear the board of all the pegs except for one. A fun game of strategy.

1394 BIORHYTHMS ($2)

This program includes an option for biorhythm compatibility for two individuals.

1397 MONOPOLY ($5)

Let your computer be the master controller of this all time American favorite while you and your family enjoy hours of diversion.

1398 PEWBERT ($3)

Another reflection of a well known arcade game.

1403 CRICKET ($2)

Cricket is the famous game which involves targets and darts. It challenges you to use your skills of concentration.

1405 SUPER STAR TREK ($4)

The true original unabashed Super Star Trek. Includes all the original options and displays, enhanced for your enjoyment.

1427 BANANA ATTACK ($2)

A spy has infiltrated the Royal kitchen and poisoned the bananas. You, as the bodyguard of King Henry the Monkey, must block the poison bananas. A real smooth of a program!

1428 NUMBER INVADER ($2)

As general of the Numbers, you must defend your planet from the invaders.

1429 CANNON MAN ($2)

Rescue men shot from a cannon in perfect parabolic arches. This game requires an excellent sense of judgment and coordination.

1430 BOA ALLEY ($2)

Challenge your senses as you zoom your snake through the maze, attempting to capture targets.

1442 LUZON ($3)

The Japanese invaded Luzon, the main island of the philippines on the 10th of December. Due to lack of air cover, the American and Philippine forces were driven back by the superior number of Japanese troops. The object of this game is to hold out for 30 days before surrendering to the Japanese. A well thought-out, realistic simulation.

1445 HOT DOG' ($2)

Hired on as Head Chief of Hot Dog Haven restaurant, it is your job to see to it that the hot dogs get popped into the buns - not onto the dirty grill.

1447 MYSTERY ($2)
You are a private eye at a fashionable party when a murder takes place. Not only must you determine the killer, the weapon and the room, but also the VICTIM! Requires clear thinking and logical deductions.

1448 RUN JOE RUN ($3)
With his home in danger of being foreclosed, Joe makes his way to the bank but is five cents short. The paper boy rides by and pennies are falling out of the hole in his pocket. Joe then attempts to recover the pennies in heavy traffic.

1501 PREACHERS & LAWYERS ($2)
Solve the ownership of the numbers in this unique and novel logic game.

1502 THREE BUCKETS PUZZLE ($2)
You have three buckets of milk to solve the problem of pouring properly.

1503 OLD TIMER PUZZLE ($2)
Make the red and white squares change places. Can you solve this challenging puzzle?

1505 ELECTION PUZZLE ($2)
Can you make the elephants and donkeys change places by shifting politicians?

1506 4 X 4 PUZZLE ($2)
The object is to put the letters into alphabetical sequence. One or two player game with multiple levels.

1507 HEX PAWN ($2)
A simulation of the famous game. The computer uses logic to improve its play via artificial intelligence.

1509 SNAKES & BUGS ($3)
You must maneuver your snake to eat as many bugs as possible. Fantastic, colorful game that you are sure to enjoy!

1510 ZOMBIES GALORE ($2)
You are trapped in a graveyard surrounded by an electric fence. Zombies aroused by your presence and lured by the scent of your blood crawl from their graves to devour your soul.

1511 TACO MAN ($3)
Run your taco through the corridors and gobble up as much hamburger, tomatoes and shredded cheese as you can while avoiding the chile peppers. Try to stop the taco eaters from devouring the tacos.

1514 KAMIKAZE ($3)
Your task is to defend a futuristic city from 21st century alien Kamikazes. With limited ammunition you must destroy the enemy. Multiple screens include waves of different aliens with different maneuvering ability. Challenging fun!

1515 LOONEY LANDER ($3)
Looney Lander is drifting towards the moon. Using your power supply for stabilization, you must avoid the deadly space quarks as you attempt a soft landing.

1519 CHOPPER ($3)
As commander of the Texas Air Patrol you must destroy invading choppers and paratroopers.

1520 ZERO ZAP ($3)
A pin ball action game for one or two players. Three separate pin ball designs are included in this unique program.

1521 SLOTS 'O FUN ($3)
The attractive slot machine includes aces, sevens, bars, bells, lemons and cherries. A point system is used instead of money.

1522 CROSS FIRE ($2)
The object is to destroy enemy ships to earn points and add fuel. Line the enemy up in the cross hairs and fire away. Great game for the younger set.

1523 KLINGONS ($3)
You are in command of our Galactic Perimeter Satellite Defense System. With your 3 satellites you must hold off and destroy the Klingons.

1524 ROCKET DOCKET ($3)
Dock your space shuttle on to the space station without crashing. A real smooth program with nice sprite graphics.

1525 NIGHT AIR RAID ($3)
The 40th Armor Division is under heavy attack. It is imperative you destroy the approaching air craft.

1526 SEA STRIKE ($4)
As commander of a nuclear submarine you must keep your sector free from enemy activity, particularly marauding submarines. Extensive instructions included.

1527 MAZZO BALLS ($3)
The aim of the game is to keep the moving sprite soaring by clearing the path with the aid of the gates. A combination of logic and dexterity skills. Endless hours of fantastic fun!

1528 COLOR PINBALL ($2)
Enter your quarter, fire short or long and watch your score accumulate.

1529 RUBIKS TWO ($2)
Two adaptations of the famous logic brain puzzle, Rubik's Cube.

1530 SUPER JACKPOT ($3)
A dazzling, multi-betting slot game. It's based upon English tactics and uses pounds in betting.

1533 DEFENDER ($3)
Sit in the cockpit of your highly advanced space craft. Use your controls to defend Earth. A different perspective in space games.

1534 ICBM INTERCEPTOR ($2)
You are in control of the defensive ABM's. The sky is full of incoming ICBM's. Your task is to save our city.

1535 MOONRAKER ($2)
You control the shuttle runs between Phobis and Demois, the moons of Mars. Avoid meteor collisions as your fleet of 5 ships make their journey.

1536 GALACTIC GUARDIAN ($2)
You command a sector of Earth's defense. You must destroy Alien Lizard Infiltrators as you rendezvous with your flag ship.

1537 KLAATU ($2)
You have 5 star ships under your command. The mission is to attack and destroy the 5 major cities of the Klaatu empire.

1539 KATZEN MOUSE ($2)
Gobble up all the cheese you can before the cats get you.

There's a difference between the green and yellow cheese!

1540 ROACHES & BEES ($2)
Use your boot to stomp on the entering roaches before they infest your place. Kick the killer bees as they attack your boot.

1541 MATCH A PATCH ($2)
In this one or two player game you try to match the color and pattern of the patch. Multiple levels of difficulty.

1542 ACME HOTEL ($2)
There is a bomb in the hotel that must be located. Use the colors and your bomb detector to save the hotel. Multiple levels.

1545 THE L-GAME ($2)
Compete against the computer in placing the L on the board. A unique logic game.

1547 MISSIONARIES & CANNIBALS ($2)
Solve the problem of crossing the river. Don't get eaten by the cannibals!

1548 BLACK BOX BALLS ($2)
Inject your probes into the mysterious black box in an attempt to deduce where the 5 balls are hidden.

1551 COIN PUZZLES ($3)
You receive 3 different logic games. Coins and weight; gold or counterfeit coins; bags of gold coins with weight and counterfeit dilemmas.

1552 REVERSO ($2)
Compete with the computer to put the numbers in order. The computer plays a perfect logic.

1554 VEGA ($3)
Your space ship crashed on the third planet of the Vegan solar system. You must learn the Vegan Language of tones to enlist their help to return to Earth. Extreme logic is involved to understand this friendly species.

1555 MEDIEVAL SIEGE ($3)
Two medieval castles fire cannonballs with the object of destroying each other. Aim your cannon and enjcy the smooth sprite graphics.

1556 KAPTAIN KRUNCH ($3)
Gobble up as much fruit as possible. The munchkins will get you if you don't watch out.

1558 WARLORDS ($3)
Your sector in space is infested by the insidious warlord of Xorbitron. Your mission is to destroy them with your ship that is limited by its power supply. Multiple levels of play. Level 4 is nearly impossible.

1559 MELTDOWN ($2)
Roaches got into the core of a nuclear reactor releasing deadly gamma particles. It is the end of all of us unless you clear all 5 reactor levels. You will have to deal with gamma particles and rays, radioactive roaches and depleting oxygen supply.

1560 MOUSE IN A MAZE ($2)
The object is to find the cheese within the complex maze built on a huge doughnut. Without extreme logic you will find yourself going around in doughnut circles.

1561 QUEEN ($3)
A superbly written version of the classic strategy game.

1562 ROTATE ($2)
The object of the game is to put the letters in order by rotating letters. A real brain buster!

1563 SHOOT THE STARS ($2)
The object is to shoot the stars to change the galaxy to match a specified winning pattern. Fascinating!

1564 ARITHMETIC ($2)
By solving complex puzzles from clues you learn all types of arithmetic. Very challenging.

1565 CRYPTO DIVISION ($2)
Numbers are substituted for random characters in this super logic puzzle. The computer aids you with a series of advanced features.

1566 NIMBO ($2)
The computer chooses any number of NIMBOS from 8 to 36. The object is to outsmart the computer in picking up the last NIMBO. Another difficult logic game.

1567 GLUNK ($2)
The pile of Glunks must be deposited into waste cans. You compete with the computer to end up with an uneven number of Glunks. A real challenging brain buster.

1568 HUNDRED % ($2)
A super challenging logic puzzle. The computer scores the actual percentage of correct responses as you proceed through the puzzle.

1569 ADDITION MAGICIAN ($2)
Use the information given by the computer to solve the math problems. Less complex than the previous program. Just right for the apprentice who is not yet a Merlin.

1570 SUPER MULTIPLY ($2)
The same program as above except multiplication is the basis of the math problems.

1571 BAGELS ($2)
A novel guessing game. A bagel of a bargain for the younger set.

1572 MAWARI ($2)
The computer places several pawns on the board. A modern version of AWARI, the ancient African game with modified rules.

1573 CHECKER BEGONE ($2)
In this novel program you will find it difficult to remove all the checkers from the board.

1574 ONE TO FIVE ($2)
A challenging puzzle with the purpose of changing numbers and positions. Another brain buster.

1575 OTHELLO II ($3)
Another version of the famous board game. You won't be disappointed, it's a superbly written program.

1576 SPHINX ($2)
An easy to understand - but hard to solve puzzle. Based on an old Egyptian game.

1577 CHANGEROO ($2)
The purpose of this game is to change a word into another word. A top notch vocabulary builder for the entire family.

1580 COOTER BUG ($3)
A superior Cootie program for those who enjoy the famous parlor game. Multi-play options.

1581 SIX BONES ($2)
The object of the game is to pick up combinations of dice totaling the numbers you want to eliminate. Another challenging and pleasing puzzle.

1582 FLIP THE GRID ($2)
You must fill the grid by flipping the musical notes contained in the grid. Challenging fun with a musical flair.

1583 FORCED ROUTE ($3)
A game of skill with a little luck which may last many hours depending upon your strategy. Corner the corner before your opponent forces you to the coroner!

1585 Q-BONO ($3)
Guide Q-bono over the pyramid of blocks to change their colors. Be wary of the snakes!

1588 SOLITAIRE ($3)
A very nicely written solitaire game. You'll never cheat in this one!

1589 CANNON BALL CHESS ($7)
Two teams fight for control of the river for survival. You must eliminate a group of tactical necessities to win. A truly superb program.

1593 STRATEGY CHECKERS ($3)
A multi-level game with sophisticated computer techniques. Choose the level & type of computer strategy to match your play.

1594 KNIGHTS BRIDGE ($2)
Play the computer and capture 5 of his knights before he captures yours. A really nice chess-like program.

1596 SUPER AWARI ($3)
A multi-option version of the famous African Board game. Very good logic game.

1599 BOGGLER ($2)
Capture 5 pairs of your opponents pebbles, or get five pebbles in a row. A fun, competitive game.

1600 CHARADES ($2)
A fun paity game for party-time people. Categories include movies, songs, books, people and cliches.

1601 WHEEL OF FORTUNE ($3)
Win a fortune in our adaptation of the famous television game show. Fun for the family, and great for parties!

1602 WIT SERIES 1603-1607 ($9)
You may purchase the entire WIT Series for $9 by ordering 1602 or you may purchase each program individually below.

1603 THE GAME OF WIT ($3)
A Fabulous scrabble type word game for 1 to 4 players. You form interlocking words on the playing grid with etters of varying value.

1604 NIT WIT ($3)
The object of this 2 player logic game is to trap letters to spell out the longest word. Fun and challenging.

1605 WIT OR WIT OUT ($3)
A one to six player game with the object of forming a word from letters displayed. Points based upon length, validity and colors used.

1606 WITTLE WIT ($3)
You must form the shortest word possible from letters displayed. A new and refreshing twist in the series.

1607 WITS END ($3)
Similar to the Game of Wit except your score is dependant upon the values of the playing grid.

1615 SUPER L ($2)
Position your L's and boxes on the matrix to prevent the computer from placing his L's. A neat twist to this logic game.

1618 BACKGAMMON ($3)
A truly nice version for an enjoyable game of backgammon. Roll on and have fun.

1619 CLOSE ENCOUNTERS ($3)
A simon type program of the nicest quality. It has multiple options for maximum enjoyment.

1623 BLIND MAGIC ($3)
You are in the center of an interesting maze. Find your way out. There are 11 levels of maze difficulty.

1624 BLOCK SWAP ($2)
Remove the objects to recreate the squares with the fewest number of moves. There are 9 levels of difficulty in this brain busting game.

1627 SHUFFLE SQUARES ($2)
Your task is to move squares to recreate squares. The computer shuffles them quickly. A fine logic game based closely on the RUBIK CUBE idea.

1628 ASSASSIN ($2)
The moral majority has hired 10 hit men to snuff our King Hugh. Use your CIA agents to apprehend the assassins.

1629 HORSE RACE ($2)
Make your day! Use the odds chart, place your bets and watch the nags take off.

1635 TIC TAC DOUGH ($3)
A simulation of the famous T.V. show. See how much you can win.

1637 CHINESE CHESS ($6)
A truly outstanding version of the famous Asian game. The program teaches the techniques and intricate combinations necessary to become a good player. Excellent and complete documentation is included with this program.

1641 BEETLE ($3)
A two screen game in which you aid the beetle to safety. A fascinating and novel game with multiple levels of difficulty.

1642 BOWLS ($3)
A super version of the famous British lawn game, Bowls. Excellent and challenging as you try to get closest to the white jack.

1643 POMPII ($3)
An old gambling game from the Romans. A delightful and novel game guaranteeing hours of fun for the whole family.

1644 RAGING RIVER ($3)
Navigate the treacherous expanse of the river avoiding the ever changing obstacles. The person travelling the farthest is the winner. Very challenging.

1646 LIFE LINE TO TITAN ($3)
You are piloting an agile cargo lander whose mission is to land on Titan safely. Very enjoyable.

1647 LOST RUINS ($2)
Earth, 9999 A.D.. Man has reached the stars, but has lost track of his origins. Use your robots to find artifacts that may solve the mysteries.

1650 SCRUM ($3)
511 puzzles in one! The computer will give you a never ending list of objectives in this fun-for-life game. Switch, sort and shuffle boxes to achieve the goals.

1700 GIANTS AND DWARFS ($3)
A multi-option strategy game involving Giants and Dwarfs. Use your smarts to either trap the Giant or escape the Dwarfs depending upon your selection. A novel and clever chess-like game that is sure to be one of your favorites.

1701 CHAINLINK SOLITAIRE ($3)
An excellent solitaire game using the entire deck of 52 cards. This unique version of solitaire actually requires a little cognition to beat it - you have to look at several moves in the future, like chess.

1703 SEGREGATION ($5)
A series of multi-level difficulty (1-20) picture puzzles. The computer scrambles up the pieces of the puzzle and you must restore it in the least number of moves. One of our finest, most enjoyable selections.

1706 SANTA PARAVIA ($4)
A multi-player game based in the middle ages. Use your economic resources along with your ruling edicts to expand your power.

1709 CASINO JACKPOT ($3)
Superior graphics make this game of chance a real delight. Play until you hit it big!

1711 A DAY AT THE RACES ($3)
Use your $10,000 fund to become rich. Place your bets according to the handicapper's info. Have fun - off they go!

1720 RUNES AND GLYPHS ($3)
A strategy game played on a 16x16 playing board. You play against the computer to reach your goal. Includes multi-level difficulty.

1724 MAGIC SQUARES ($2)
Two separate games. In the first game arrange the squares in the proper sequence. In the second game, you must arrange the numbers in the proper sequence.

1725 RESCUE ($2)
Alien robotoids programmed to act like Kamikazes are attacking our colonized planet. Your mission is to destroy them and save our colony. An excellent action packed game.

1726 ELECTRONIC DART ($2)
A novel method of playing darts! Try to hit the target as your score is determined mathematically. Good luck and have fun.

1727 CYBER DICE ($3)
A multi-level, multi-player Yahtzee type game that allows single, double or triple play. Nicely done.

1729 ROBOT CHASE ($2)
You have been imprisoned in a room by a mad scientist. You must avoid the blue robots and kill them on the red barriers.

1730 TWO PLAYER POKER ($3)
A nice 5 card stud poker game. Great action with neat graphics. The computer is your dealer.

1731 DICE GAME ($3)
An excellent 4 player game in which you stake your life on the roll of the dice. Hours of enjoyment for all.

1733 PRO 21 ($3)
A very thorough Blackjack program that provides excellent description of various playing strategies. Includes: 1 to 10 deck play, double down, split any pair - play up to 16 hands at once, surrender, insurance and more.

1734 PUSHOVER 21 ($3)
This game is designed to provide the characteristic differences between standard Blackjack and the variant PUSHOVER 21.
In this popular Las Vegas game, the player does not necessarily lose when going over 21.

1735 FREE STYLE CHESS ($3)
Unique form of chess, played on a normal chessboard with all the pieces. The computer makes legal moves, while the player can move anywhere on the board. The program can be played out as a whole game, or moves and strategies can be tested.

1736 KRIEGSPIEL CHESS ($3)
You play against the computers invisible pieces in this famous chess variant. Similar to traditional Kriegspiel chess, except play is done on one board with the computer as your opponent. The computer also verifies the legality of all moves - often difficult in the traditional game.

1737 SKILL CHECKERS ($3)
Multiple skill levels allow both beginners and experts to enjoy this checkers program. Excellent play!

1738 GIVEAWAY CHECKERS ($3)
In this version of the game, you win if you are the first to lose all of your pieces. Unique and very interesting.

1739 PERFECT LOGIC ($3)
Use your skills of logic and deduction in this fantastic game. A set of premises are given in both graph form and in statements. You must determine if the possible conclusions given can be drawn from the premises. Super!

1740 INVERT LOGIC ($3)
Similar to PERFECT LOGIC above, but provides more complex logic problems, including the inverted logic of a premise. Super fun, super good.

1741 SKILL BACKGAMMON ($3)
Multiple skill levels provide excellent play for both the novice and expert alike.

1742 RUSSIAN BACKGAMMON ($3)
Popular Russian version of the game where all the pieces start off the board and must be moved all the around before the elimination phase. Fun game!

1743 STUD POKER ($3)
Unique five card stud poker, because you play the

computer one-on-one. Beware: The computer is a sly opponent.

1744 DRAW POKER ($3)

It's you against the computer in the game of five card draw. Takes the boredom out of typical 'video poker' by providing direct competition against the computer.

1745 OREGON TRAIL ($4)

Simulates a trip over the Oregon trail, from Independence to Oregon City in the year 1847. Educational as well as entertaining.

1746 COLOR SQUARES ($3)

It's you against the computer in this unique strategy game. Take turns moving pieces to the squares, using a simple yet sophisticated set of rules.

1747 WORDSEARCH ($2)

Have the computer make you a word search with it's built-in vocabulary, or make your own right on the screen.

1749 GETAWAY ($2)

Great maneuvering game in which you must try to get your man across the screen without being caught by the bugs.

1750 MYSTERY MELODY ($3)

Play our super version of 'Name that tune.' Scores of songs in memory will keep every ones attention.

1752 FRENCH BLACKJACK ($3)

Play quality Blackjack on your computer with all prompts, etc. in French.

1753 LUCKY SEVEN ($3)

A fun card game in which you compete against the computer to see who achieves the highest score without 'busting'. A classic!

1755 PLAINS OF SALISBURY ($3)

This program is an exciting simulation of King Arthur's last battle on the plains of Salisbury. The game requires two players, each controlling an army of gallant knights.

1756 OVER REACTION ($3)

This program simulates the operation of an electric-power-generating nuclear reactor. You must operate this very realistic nuclear reactor smoothly, producing a steady supply of electricity to prevent automatic shutdown.

1758 INTERPLANETARY RESCUE ($3)

Pilot your rescue craft through treacherous mountain terrain of several planetary bodies, in order to rescue the stranded miners. Multiple skill levels add to the fun!

1759 WHITEWATER RUN ($3)

Guide your raft down Whitewater canyon, avoiding all sorts of obstacles! Nicely done.

1760 FOUR IN A ROW ($3)

A delightfully well done version of the classic logic game. A program that the whole family will enjoy. Play the computer or a human opponent.

1761 RIGHT/LEFT ($2)

This fiendish program will determine if you really know your right hand from your left hand. You'll be in for a real surprise if you think this is an easy one! A test of coordination.

1762 NERVOUS BREAKDOWN ($2)

A game of memory skills. You are rapidly given tones, colors and numbers that are in a specific order. You must remember the order to win. Warning: this program may cause a nervous breakdown!

1763 JELLY BEANS ($2)

Eat as many jelly beans in a limited amount of time as possible, avoiding the licorice jelly beans. Allows one or more players.

1764 SIMON SAYS ($3)

You must move ONLY when 'Simon Says' in this outstanding program of reflex and concentration. The game gets progressively more difficult as time goes on.

1765 BARS AND BALL ($2)

The object is to drop the eight balls into the cup in 100 moves or less. This is achieved by rotating layers of bars that contain gaps for the balls to fall through. Requires some real cognition.

1766 TROGMAN ($2)

Guide the Trogman through the maze and eat as many power dots and special targets as possible. Avoid the hostile Wraiths in this interesting variation of the classic arcade game.

1767 VERSAILLES ($2)

Guide your man through the maze-like garden of King Louis XV, in an attempt to escape. Avoid the obstacles and try to gain as many points as possible.

1768 MICE MAZE RACE ($2)

A day at the Mice Races! Bet on the mouse that you think will escape first. One or two players.

1769 GRABBERS ($2)

Another fun maze action game. Pick up all of the targets, while avoiding or trapping the fast moving Grabbers.

1770 ZARQUON ($3)

The aim: destroy aliens. The means: sophisticated laser banks. The program: an excellent one of this type. Includes nice graphics and many special features.

1771 STONEVILLE MANOR ($3)

A text only adventure game in which you must locate and open the safe at Stoneville Manor. A very challenging game, sure to keep to busy for awhile.

1774 MUSICTRATION ($3)

Similar to concentration, except uses musical symbols and sound. Combines music and memory.

1776 TEXAS RANGERS ($3)

As the Texas Ranger, you must rescue the maidens in distress while avoiding sidewinders, cacti, Black Barts' evil gang of outlaws and other troublesome things! Nice colorful graphics, and excellent instructions!

1777 BEETLE WALK ($3)

A super five screen game of action and reflex. Guide the beetle through each segment of the game, avoiding obstacles and obtaining the necessary targets as you go along. Another great game with super graphics!

1778 LIGHT THE STREET ($2)

A highly challenging logic game. You must attempt to move from the beginning of the street to the end, following a set of rules. Includes an auto-solve mode.

1780 BLIMP RESCUE ($3)
Use your blimp to rescue individuals from the sky-scrapers. Many obstacles will confront you in this fast actions game.

1781 FLOORWAY ($4)
A fantastic multi-screen arcade-adventure game. Use your skill to move through the maze of different floorways trying to capture the jewels. This well designed game will provide you with many, many hours of computer enjoyment.

1782 SECOND FLOOR ($3)
This sequel to the game 1781 FLOORWAY above provides you with ongoing challenge and many additional screens. A great program at an even better price. You won't be disappointed.

1785 ENGINEER ($3)
Your task, in this GREAT game, is to build a bridge across a chasm which is displayed on the screen. This is accomplished by the usage of various different beams, following a specific code of construction. Fun and challenging!

1787 HARRIED HOUSEWIFE ($2)
Here is an interesting variation to the Concentration game concept. This fine quality game with nice color graphics uses household items such as vacuum cleaners, ironing boards, dust mops, etc. - plus you're timed (finish before the kids get home!)

1788 EXPLOSION ($3)
In this unique game concept, you and the computer take turns placing checkers on the game board. When the number of checkers on a specific square reaches it's pre-determined limit, the square will explode spreading it's checkers to the adjoining squares. The winning move starts a chain reaction which causes the entire board to explode! Interesting fun and (as usual) great programming.

1789 MIND BUSTERS ($3)
A multiple skill level brain buster! Your computer will display two boxes on the screen containing complex puzzle patterns. You must re-arrange the second box to match the first box in record time. The puzzles can become quite complex at the high levels of difficulty!

1790 SIXTEEN PUZZLE ($3)
An adaptation of the famous puzzle designed by the American, Sam Loyd in 1870. To solve the puzzle, you must match the patterns of the inner squares with the outer squares. This is accomplished by moving pieces from an adjacent inner square to the blank square. You'll see why we think logic games can be some of the most rewarding games of all!

1791 SUPER SPLAT ($2)
You attempt to parachute onto several different planets in this challenging simulation.

1792 LINKS ($3)
An exceptionally high quality game of logic and strategy for one to three players (all competing against the computer). The object is to build chains on the game board, following a set interesting rules. This is a very extensive program with many options for your computer enjoyment.

1793 FIREBALL PINBALL ($3)
A very nice pinball construction set for your Commodore computer. Play the default game, modify the default game screen or design your own pinball machine from scratch! The graphics and design capability are great.

1794 B.A. LLOON ($2)
A fast action, fun game in which you must pop the falling balloons with your pins before they are popped by burning matches at the bottom of the screen. Great for all ages.

1795 WIZARD OF OZ ($3)
An incredible adventure through the land of Oz, that incorporates both graphics and text. The object is to get Dorothy to the Emerald City. Lots of fun and surprises in this magical adventure game!

1796 PARTNERSHIP PINOCHLE ($2)
The classic card game played with a deck of 48 cards, made up of two of every card above eight, including the ace. The computer plays scorekeeper for two partnerships (four players).

1797 EUCHRE ($3)
Another fantastic card game, this one played with a deck of 32 cards, all the cards below seven except the ace being removed. This version pits you against your trusty Commodore computer.

1798 PONTOON ($2)
Play this interesting British gambling game for a change of pace. This game, although similar to Blackjack, differs in many fundamental ways.

1799 QUE-BERTS ($4)
Our adaptation of the all-time favorite video game. Move around the pyramid structure and gobble up the goodies - but watch out for all those blood thirsty creatures! Two great version included for one low price.

1800 PALACE TUNNELS ($3)
Includes two different maze games. In the first game, find your way out of the huge Palace of Ice. In the other, you must escape the underground Labyrinth of Tunnels. Both programs use convincing Three Dimensional graphics and create new 3D mazes every game.

1801 REMSOFT ADVENTURE SERIES ($9)
A series of five professionally designed and written adventure games for the Commodore 64 and 128 computers. You may obtain them individually for $3 per program, or the entire series (1802-1806) for only $9.

1802 VAMPIRE CASTLE ($3)
You are trapped in the VAMPIRE CASTLE and must find a way to escape. Collect the ten hidden treasures as you proceed to find your way out of this place. Good luck!

1803 MISTY HILL ($3)
Make your way through the house on Misty Hill to claim the seven reputed items of treasure. Many surprises will face you in this very challenging adventure game.

1804 SCHOOL OF DEATH ($3)
In this very unusual adventure, you must find the hidden treasure in your brothers school. Believe ME, school was never like this in MY day!

1805 ALADDIN ($3)
This adventure loosely follows the plot of the Fairy Tale of the same name. To solve the game, you must find a very beautiful princess. A nice twist to the adventure game concept.

1806 VISITOR FROM SPACE ($3)
You are an alien named ZOLTAK and have been sent from the planet JOLIARIA to a strange planet called Earth. The mission is to find ten items of treasure and to locate enough rocket fuel for the return journey.

1807 SINK THE BIZMARCK ($3)
Fast action fun as you track down and attempt to sink the infamous German Battleship. Lots of fun and surprises in this game.

1808 SHOOSHBOOMERS ($3)
Top quality ski simulation in which you must avoid numerous obstacles including pine trees, boulders and most important bears! Arcade fun for the whole family to enjoy.

1809 MOTH MANIA ($3)
Move through the grid structure and change the color of the squares while avoiding the attacking moths from all directions. Very novel concept that will keep you challenged for a long time.

1810 BUGS ($2)
Move through a microprocessor and find the bugs before time runs out! Simple yet fun game, well suited for all ages.

1811 EVIL KNIEVEL ($2)
Ride the motorcycle at great speed and try to jump the cars without crashing. Easy to use game that the whole family will enjoy.

1812 INTRUDER ($3)
You must capture an alien intruder that is hiding in a top secret government complex. Use a myriad of controls to capture the intruder without killing it. Nice color graphics greatly enhance this simulation.

1813 DEFUSE ($3)
Defuse the nuclear reactors in the correct order before meltdown occurs. Watch that you don't repeat any steps along the way, as you leave a radioactive trail behind you! Good luck and good defusing.

1814 GUNSMOKE ($2)
You and the computer duel it out with pistols in a southwest desert setting. Watch out for the walking cactus!

1815 GALAXY LANDER ($3)
Super simulation in which you control a lander destined for the surface of a planetary body of your choice. Fantastic graphics and animation make this program stand out of the crowd.

1816 RAILWAYS ($3)
Two trains are on a complex set of railways. You must control the switches fast enough to prevent collision. Truly a remarkable program that will entertain for hours on end!

1817 TRAFFIC COP ($3)
Control traffic and prevent accidents by stopping one direction at a time. Not as easy as it sounds. Requires very fast reflexes to succeed! Fun, fun fun.

1818 VICTORIAN SEWERS ($2)
You must keep the city traffic flowing, despite the frequent collapses of road sections as the old sewers at last give in to time.

1819 INDIAN DICE ($3)
This game is played with one to nine players. Six dice are rolled and various combinations yield different point values. Super party game!

1820 PEOPLE, PLACES & PHRASES ($3)
A fun wheel of fortune type game for one to four players. Take turns trying to figure out the correct response. Excellent scoring system.

1821 BOWLING ($3)
Enjoy bowling? Well here is just the program to satisfy your appetite for a good game, in the comfort of home. Fine graphics and playability.

1822 OPAL ($3)
To succeed in this graphics adventure, you must either make it past level 9 (from level 0) or return to level 0 with 100 opals. Very extensive, and well formatted for ease of use.

1823 SUPER GOLF ($3)
This program is your ticket to the Commodore Country Club! Play very thorough computer golf, while being allowed to use your head for decision making (something most computer golf games don't allow). Lots of options, lots of fun!

1824 MINIATURE GOLF ($3)
Play in the style of miniature golf for a fresh change of pace. Multiple screens provide for some very tough courses. Fun for all ages.

1825 WAR GAME ($2)
Guide your rocket fighter in an attempt to catch and then destroy the enemy planes. Smooth graphics and quick response make this a real goodie!

1826 TIP TOE TOM ($3)
Tom must cautiously move through dream land, falling on as many pillows as he can while avoiding the deadly Grumps and killer Teddy Bears. You've got to see this one to believe it! Very imaginative programming here.

1827 TOURNAMENT FISHING ($3)
Another unique game concept, this time a fishing simulation. You are a Pro Bass fisherman, and must catch the largest number (and weight) of Bass. Many options and great graphics. Also great for practicing good technique for the real world of
fishing.

EDUCATIONAL

4003 FLAGS OF NATIONS I ($2)
Learn the flags of many nations with this educational program.
4008 FIREBALL ($3)
Use your basic math skills to save the city from meteor destruction. Only your abilities can launch our defensive missiles.
4010 RESISTOR ($2)
Learn about resistor color codes with this informative learning aid. Great for anyone interested in electronics.
4014 TEST TUBE ($2)
Test your chemistry knowledge in such area as: pressure, temperature and molecular structure. An intellectually stimulating tutorial.
4015 I.Q. TEST ($2)
Written by an experienced psychologist, this I.Q. program is both accurate and up-to-date.
4026 VOCABULARY BUSTER ($3)
Prepared for college and high school level, this program will definitely increase your vocabulary.
4029 QUADRATIC ($2)
Just enter the values for an Ax + By = C equation and presto! A solution and graph.
4031 FLAGS OF NATIONS II ($3)
More flags in this excellent tutorial. Important things to understand in our modern world of instant communications.
4033 FINGER SPELLING ($4)
American sign language is covered in this program. Learn, practice or use as a translator!
4036 PROJECTILE PROBLEMS ($3)
Learn how to calculate angles of trajectory and velocities for ballistic projectiles. Four different lessons are included.
4037 FRICTION ($3)
A tutorial discussing the effects of friction. Clearly written and easy to understand.
4038 TRIANGLE AIDS ($2)
Analyzing right or oblique triangles can be fun with this super program.
4039 MATH AIDS ($2)
Enjoy the convenience of having quadratic equations, triangle arcs and averages solved at top speed.
4041 CAREER INDEX ($2)
Engineering careers such as aerospace, electrical, agriculture, etc. are discussed.
4044 SPELL DOWN ($2)
This program is packed with the excitement of a good old fashioned spelling bee. It can be used by all ages because of individual skill options.
4050 BASEBALL MATH ($2)
For the young baseball fans who like to practice their math and at the same time play their favorite game. Great for children 12 and younger.
4054 TRIANGLE ($2)
This is an excellent aid in learning the concept of angles. Useful for first year geometry students.
4058 PRESIDENTS ($2)
The ideal program to learn about U.S. presidents. Topics such as parties, terms in office and major contributions are covered.

4059 FLAGS OF NATIONS III ($3)
This outstanding program contains information for 29 different nations to test your knowledge. Includes excellent graphics.

4075 VOCABULARY TEST ($2)
High School level vocabulary is the challenge in this program. This tests knowledge in definition, antonyms and synonyms.

4081 BIBLE BUZZ ($3)
Do you know the Bible? Test your knowledge of events, places and historical people with this great program.

4083 HANGMAN WORD GAME ($2)
A super hangman type game with four word options: Enter words one at a time, create data file, use existing data file, or use the program's built in vocabulary.

4085 AERODYNAMICS ($2)
Why does a plane fly? Now you can learn with the aid of this tutorial. It covers the effects of lift, drag, thrust and gravity. Includes two programs.

4087 EDDY CLOWN ($2)
Learn to count using Eddy Clown's colorful balloons and the keyboard numbers. Super graphics, entertaining and educationally sound.

4089 LEUKEMIA QUIZ ($2)
Answer the questions and you receive an excellent commentary. It's a computer course with professional knowledge.

4090 U.S. FACTS QUIZ ($2)
Choose one of three quizzes. Presidents, States, or Capitals and join the fun. You are given clues as necessary in this stimulating program.

4097 MATH MAN ($3)
A multiplication game you can't resist! Multiplication tables 1 through 9 are flashed. Every correct answer destroys the aliens. Super!

4100 ABC 123 ($2)
An outstanding learning program using four separate lessons. Colorful graphics will keep motivation high. A must for pre-school children.

4105 COOTIE MATH ($3)
A super math version of Cootie. There are 5 levels of difficulty in basic math skills. Get the answer right and you choose your part. The computer competes by random dice rolls.

4107 SHAPES ($3)
An excellent teaching game for naming and matching squares, octagons, circles, triangles and other shapes.

4110 TRIVIA QUIZ ($2)
How well do you know the world around you? Well, now you can test your general knowledge with this great multiple choice quiz.

4111 WORD POWER ($3)
A graphical program which is designed to improve vocabulary. It contains five college levels of words to learn.

4121 FOOT RULER ($2)
Now, you can teach your children to be able to read and understand the fractional parts of the ruler.

4129 COMPOUND WORD ($2)
Learn compound words in a fun and motivating way. When you have the right answer, the music box will play a tune for you.

4132 CANADA ($3)
Master knowledge about Canada's capitals and provinces with this beneficial program.

4135 FAMOUS COUPLES ($2)
How well do you know famous and romantic couples? Test your knowledge with this unique program and learn more about yourself and the one you love.

4136 CAPITALS OF THE U.N. ($2)
This informative program includes information for most countries in the U.N. Study or be quizzed.

4137 WISCOUNTIES ($3)
Learn Wisconsin's counties with this graphics tutorial.

4140 CHEMICAL IONS ($2)
Teaches and quizzes ions and their charges, names and symbols. Excellent for the chemistry student.

4144 EUROPEAN GEOGRAPHY ($3)
Test your knowledge of the countries of Europe. A map of Europe is displayed on the screen to aid you.

4146 CENTRAL AMERICA ($3)
A graphics tutorial that will test your knowledge of our Southern neighbors.

4152 BIG BIRD ADDITION ($3)
Simple equations are displayed with attractive and attention getting graphics. After successfully completing each problem,
the child is rewarded with a colorful display.

4155 WALK THE PLANK SERIES ($4)
This is an excellent educational device involving the guessing of names and phrases from various subjects including birds, trees, flowers, elements, states, presidents and nations of America, Asia, Africa and Europe.

4200 NAME THE BONE ($3)
Learn the names of the major bones in the human body.

4201 ALPHANUMERIC DELIGHT ($4)
Outstanding graphics help number and letter recognition thus fostering a better understanding of the keyboard.

4202 BE A CLOWN ($3)
As you successfully add single digit numbers you build a clown. Ultimate mastery earns you a wink!

4203 COUNTIES OF UTAH ($3)
An excellent graphic depiction of the state of Utah. Includes a quiz.

4204 ANIMAL MULTITUDES ($2)
This program tests your knowledge of animal groupings. A mental muscle builder.

4205 NOUN TO ADJECTIVE ($2)
Learn to convert nouns to adjectives with this excellent learning tool.

4206 PLURAL ENDINGS ($2)
Learn how to change single words to plural words with this excellent learning tool.

4207 TENSE TIME ($2)
Learn how to construct proper tense in given sentences

with this fun to use learning tool.

4211 CAN OF WORMS ($2)
Play the computer and its super logic to find out who can pick up the last worm. Good luck !

4212 SCRAMBLE ($2)
Set the parameters of this game and proceed to unscramble given words. Great for spelling and vocabulary.

4214 SCRAMBULATION ($2)
A one or two player game. Type in a phrase. The computer scrambles, then your opponent goes to work. Challenging and fun - educational too.

4215 SQUINCH ($2)
Words are meshed into one and you must figure out the individual words. Educational puzzles for the family.

4216 BAZOO ($2)
Let Bazoo help for word recognition skills. A motivational program.

4217 HANGMAN PLUS ($2)
A unique and novel adaptation of the famous Hangman. Multiple options for more entertaining education.

4218 SYNONYMY ($2)
An excellent educational program for learning synonyms.

4219 HOMONYMY ($2)
An excellent educational program for learning homonyms.

4220 ANTONYMY ($2)
An excellent educational program for learning antonyms.

4221 SPEEDER READER ($3)
Features sentence comprehension and timing.

4222 JUNIOR SPEEDER READER ($3)
Similar to 4221 SPEEDER READER except designed for the younger set.

4223 ADJECTIVE TO ADVERB ($2)
Learn to change adjectives to adverbs with this excellent learning tool.

4224 GEOMETRIC ($3)
Entertain your mental processes with this superior geometry utility. It includes 17 areas to compute.

4227 WORLD ($3)
A high resolution map of the world that allows you to input and plot cities. Computes the distance for any two positions on Earth, and will also calculate the great circle mileage.

4228 FLORIDA MAP QUIZ ($3)
This program quizzes you on the cities and areas of Florida. Nice graphics.

4229 GEORGIA MAP QUIZ ($3)
Similar to #4228, but of the state of Georgia.

4230 KINDER SERIES ($5)
A series of four excellent math programs utilizing colorful kaleidoscope graphics to motivate and increase the attention span as the young learn their basic math. Includes KINDER ADD, KINDER MINUS, KINDER TIMES and KINDER DIVVY.

4236 COORDINATE GEOMETRY ($2)
A learning tool for elementary geometry. Learn the coordinate system.

4237 SHAPE SEQUENCES ($2)
Excellent for elementary students. Learn how to deduce from the given sequence what the next item will be.

4238 BIOLOGY PLUS (3)
This program displays symbols, words and abbreviations used in biology and genetics. Then your quizzed.

4239 LINEAR ALGEBRA ($3)
Solve the following with this sophisticated math program: multiply two matrices, general systems and square systems.

4240 GENETICS ($2)
This program will explain some of the laws of heredity. Mendel's laws are used. Excellent for elementary students.

4241 HANG GLOBE ($3)
Guess countries and capitals. Four levels of difficulty. A great geography program that includes latitude and longitude locations.

4242 MULTIPLICATION FACTS ($2)
A game that teaches multiplication as you compete with the computer to reduce lists and products. Some logic in choosing facts is involved.

4243 READ FAST ($3)
A program to teach faster reading skills. Multi-level difficulty. Features words, numbers and phrases.

4245 PAC MATH ($3)
With the help of Mr. Pac Math, children will enjoy learning counting skills and basic math skills. This program will eat it's way to your heart.

4247 SPANISH SERIES ($5)
Six great programs for the Spanish student for one ultra low price of only $5. That averages to about 83 cents a program.

SPANISH CONCENTRATE
Skills to increase vocabulary.

SPANISH VERBS
Excellent verb learning tool.

SPANISH SPELL
Improve vocabulary and spelling.

SPANISH MATH
Addition, subtraction, multiply and divide.

SPANISH FLASH CARD
Flash card vocabulary builder.

SPANISH GRAMMAR
Excellent coverage of the Spanish grammar.

4256 FRENCH VERBS ($2)
An excellent verb learning program for the French student.

4257 FRENCH VOCABULARY ($3)
Fine graphics combine with French phrases and vocabulary drills. A must for the French student.

4258 FRENCH NOUNS ($2)
Learn French nouns with this excellent tutorial.

4259 SHARPS ($2)
Name the major key signatures on the staff. A really nice learning program.

4262 EARLY TYPING ($3)
A superior music and graphic program to teach typing. A good program to learn the home keys.

4263 TYPING FOR ACCURACY ($3)
Learn any portion of the keyboard with this excellent program. Try to increase your typing accuracy!

4265 KORS ELF ($2)
One of the nicest arcade type tutorial. A super motivational tool to take the tedium out of learning to type.

4266 LEARNING TO ING IT ($2)
An excellent learning tool for adding "ing" to words.

4268 SERF CITY ($3)
Compete with an opponent to see who survives the longest in this political science game. Make the right choices to rule politically, economically and militarily.

4269 MINE OVER MATTER ($2)
This program simulates a huge uranium mining operation for up to four players. Very extensive and thorough.

4270 TRIG TRIX ($3)
This program covers three areas: right triangles, Law of Sines and Law of Cosines. Also included are drills and challenge modes.

4271 WORD PUZZLE GENERATOR ($4)
A two program set which will design (and optionally print) both crossword puzzles and word find puzzles from user-created word lists. Word lists can be stored for later use or editing. In addition, you'll receive Turn the Water Off, a game that can be used for the practice and study of specifically targeted words.

4301 LEARNING SERIES-T.V. SWEEPSTAKES ($5)
This two program set allows a flexible and motivating format for the practice and study of customized learning material. Program one is designed to help parents and teachers develop computer files of questions and answers for use with the motivating educational game T.V. sweepstakes. This enjoyable program allows children to compete in a game show setting with points gained by correctly answering the given question.

4306 VOYAGER ($5)
Voyager puts you in control of a "Planet Hopper" series spacecraft. With the aid of your on board computer and sensory devices, you can navigate to, and explore the planets, moons and sun of our Solar System. Whether you survive depends on your ability to gather information and make quick decisions. Voyager teaches players to manage resources, maintain the needs of life support, and collect and use information to navigate the Solar System.

4307 BARNYARD SERIES ($5)
A series of five excellent math programs for the elementary student. All programs are in a barnyard setting and include all the basic math skills as well as counting.

4314 CONSTELLATIONS ($3)
An excellent graphics display of the constellations that allows for both study and quizzing.

4315 MUSIC STEPS AND CHORDS ($3)
Includes 5 learning modes: half-steps, whole steps, count steps, identifying triads and triads quiz. Excellent graphics and thorough programming.

4316 SUPER GEOMETRY SERIES ($6)
Five super programs with extensive mathematical calculations for geometric shapes. All five programs can be yours for only $6 - that's just over a buck a program!

SUPER GEOMETRY 1
Deals with triangles, parallelograms, rhombuses, trapezoids, circles, polygons and quadrilaterals.

SUPER GEOMETRY 2
Deals with paralleletipets, tetrahedrons, regular pyramids, frustrums of pyramids, prisms, cubes, rectangular solids and
prismoid polyhendrons.

SUPER GEOMETRY 3
Deals with cylinders, cones, hollow cylinders frustrum of cones, spheres and barrels.

SUPER GEOMETRY 4
Deals with motions of Euclidean planes, transformation of similarities and afine transformation.

SUPER GEOMETRY 5
Solves four types of triangles: SSS, ASA, SAS and PPP.

4323 TEACHER STATISTICS ($5)
This program computes general statistics, and allows for a number of methods of providing indepth analysis and grading.

4325 LEARN ABOUT NOUNS ($2)
An excellent tutorial that teaches all about nouns.

4326 BLACKJACK TUTOR ($2)
An outstanding tutorial that teaches and quizzes the game of blackjack along with providing a basic strategy.

4327 LETS BUILD AMERICA ($3)
Learn the 50 states and capitals with graphic representations. Excellent learning program.

4328 MULTI-MATH QUIZ ($2)
An indepth program that will quiz basic math, fractions & GCD/LCM problems. Includes grading diagrams and multi-difficulty levels.

4329 GEORGIA PRIMER ($2)
A quick tutorial of the history and trivia of Georgia. Thorough and informative.

4330 PHYSICS RACE ($2)
A physics quiz game to motivate learning of physics terms.

4331 MATH HANGMAN ($2)
Motivational game for basic math problems. Excellent for the elementary student.

4332 MATH CONCENTRATION ($2)
An adaptation of the famous concentration game using math facts. Match the correct answers in this novel memory improving game.

4334 WORLD CAPITALS ($2)
Practice world capitals with this fine quiz program.

4337 DIVISION ($2)
Includes two modes: flash card division and long division. A must for the elementary student.

4340 STATES QUIZ ($2)
Learn capitals, largest cities and popular names of the states.

4342 PATTERN LOGIC ($3)
Find the group of symbols that do not belong with the other groups. Not a simple children's program!! Excellent entertainment and educational program.

4343 LANGUAGE LOGIC ($3)
Choose the adjective that best suits the patterns generated by the computer. After a series of questions, the computer will provide a personality portrait for you.

4344 KEYBOARD ($3)
Young and old alike will enjoy learning from this program. Eight primary options, ranging from character recognition to typing practice. Also includes a word guessing game.

4345 BLITZ READER ($4)
Two speed-reading programs. The first works with word context comprehension and the second with whole sentence/paragraph comprehension. Extensive built-in vocabulary.

4347 MISS SPELL ($2)
A novel spelling drill program which includes the ability to use built-in words or create your own lists.

4348 KIDDIE COUNTER ($2)
Enjoyable program that will help young children learn to count. Colorful fun.

4349 SPELL I AND E ($2)
Great program to help you learn to spell those confusing words that have IE or EI in them.

4350 SPELLING LIST ($2)
Create word lists and quiz them in three simple formats, including flash card.

4351 TRINOMIA ($3)
An excellent program for learning and improving skills at factoring trinomials

4352 FRACTIONS ($3)
A homework helper for children learning fractions. Will correct the assignment, while providing essential insight to the concepts involved.

4353 EKG ($3)
Study and quiz program for numerous EKG patterns. Excellent graphical representations.

4354 NANO PROCESSOR & ASSEMBLER ($6)
A fantastic voyage through the microprocessor. With this simulation of the computer's inner workings, you can discover how easy & how much fun it is to communicate with your computer at it's most fundamental level. In addition, it shows you how an assembler can provide easy access to machine language - by translating simple instructions into the computers native tongue.

4355 GEOMETRIX ($3)
A sleek program designed to administer problems dealing with the basic shapes of plane geometry. An educational and practical tool.

4356 SWITCH SPELLING ($2)
A fun spelling aid in which scrambled words are displayed for you to unscramble. You must switch sequences of letters to accomplish this. Includes: ability to save/print custom spelling lists and an auto-solve feature.

4357 LASERITHMETIC ($2)
Another fun way for youngsters to practice their basic math skills. Correct answers fire a laser at the oncoming aliens.

4358 VITAL SIGNS ($3)
This program provides a simplified simulation of the circulatory system. Do you take your cardiovascular system for granted? With this simulation, you'll start paying attention to every breath you take and every beat of your heart.

4359 MECHANICAL APTITUDE ($2)
Broken blocks are displayed on the screen. Two of them can be flipped or rotated to fit together perfectly. Requires some real thought.

4360 FRACTION MATH ($3)
This program will calculate with fraction and whole numbers with fractions, and provide results in reduced fractions. Allows step by step entry, or one line entry. Provides all the essential mathematical operators.

4361 ROMAN NUMERALS ($2)
Convert to and from Roman Numerals with this helpful aid.

4362 CAST NINES ($2)
This program will interactively teach the 'CASTING OUT NINES' method of correcting multiplication problems. Unique and useful program.

4363 RUSSIAN MULTIPLY ($3)
A unique method for solving multiplication problems using a simple set a rules. After learning the technique, you will be able to solve small or HUGE multiplication problems with equal ease.

4364 MUSICAL NOTES ($3)
Practice and learn musical note recognition. Very nicely done.

4365 NAME THE TUNE ($2)
Solve the mystery tunes! Includes 80 songs.

4366 MUSICAL SCALES ($3)
This program teaches, demonstrates and quizzes the various kinds of musical scales. This very thorough program uses a piano keyboard to demonstrate graphically.

4367 MUSICAL INTERVALS ($4)
An indepth program that teaches and demonstrates intervals. Includes a great interval quiz game!

4368 MUSICAL RHYTHM ($3)
A super learning tool for the manipulation and recognition of musical rhythms. Colorful learning fun for 1 to 10 people or teams.

4370 AMERICAN FLAGS ($3)
Learn all about the 27 American flags dating from 1777 to 1960, including graphical representations of them on the computer screen. Includes information on the new states, which president was in office, etc.

4371 WORLD GEOGRAPHY ($3)
Two excellent study and quiz type programs involving Nations, Cities and Locations throughout the world. Multiple skill levels and several quiz combinations are available. An extensive amount of information.

4372 IDENTIFY STATES ($3)
A complete set of three excellent programs that will help students identify states and capitals from maps displayed on the screen. The programs include study and quiz phases. State area maps are large and easy to read.

4373 SEA OF STATES ($3)
Motivating educational game that makes learning about the United States fun and easy. Collect gold and avoid dangerous undersea creatures and obstacles while answering questions involving States and Capitals.

4374 ENGINE DEMO ($2)
An on-screen graphical demonstration of a 4-stroke engine. Clearly shows engine movements and actions. Helpful for understanding the fundamentals of internal combustion engine operation.

4375 JET ENGINE DEMO ($2)
An on-screen graphical demonstration of a Turbojet engine. This introduction to jet engines will teach you many of the fundamentals of design and operation.

4376 ASTRONOMY PRIMER ($2)
Learn about the planets, stars and various astronomy terms. Designed as an introduction to the wonders of astronomy.

4377 CONSTELLATION QUIZ ($3)
A large quiz program involving 57 major constellations. This excellent program will greatly enhance your recognition skills.

4378 PLANET COMPARE ($3)
Fabulous educational program for learning about the planets. Study and quiz with a myriad of planetary information including graphical size comparison of the planets. Many options in this very extensive program.

4379 MARTY MARTIAN ($3)
Younger children will just love to learn about the solar system with the help of Marty Martian. Travel on a 'space holiday' with Marty and learn the fundamentals of our solar system and the planets contained in it.

4380 WATCH THE PLANETS ($2)
From the date information entered, the computer will display all of the planets according to their heliocentric longitude and move them in relation to each other. Very interesting!

4381 CLIMATIC POLLUTION ($3)
Extensive program that examines the natural processes of Earths ecology and the human impact on such from pollution. This discussion is accompanied by many excellent charts and graphs.

4382 ELEMENTS QUIZ ($2)
Study and quiz type program involving Element names, Element symbols and Atomic numbers. Quizzing can be done in several formats with multiple levels of difficulty.

4383 MUSIC EAR TRAINING ($3)
Superb program that will assist in ear training for music. Covers chord recognition, pitch recognition, rhythm recognition and two part progression.

4384 CANON DE PURCELL ($2)
The computer displays the notes and symbols to the classic with a graphical depiction of how chords are implemented to improve sound quality. Shows how a classical piece is constructed.

4385 TRANSPOSITION ($2)
Musical transposition charts are displayed, allowing you to transpose between the various keys and signatures.

4386 THE MUSIC GAME ($3)
An impressive program that provides a competition between one or two players or teams. Be the first to figure out the key signature of the given notes. Includes treble, bass and combination quiz modes.

4387 LET'S LEARN NOTES ($3)
Two helpful programs for the learning of musical notes. Includes keyboard, treble clef and bass clef study and quiz modes. One of our finest musical education selections.

4388 MOZART ($2)
Learn about the life and career of musical genius Amadeus Mozart. This enjoyable program plays a rendition of MINUET FROM THE LINZ SYMPHONY as it proceeds to educate you.

4389 VIOLIN TUNING ($3)
A must for those who use the violin. Guides you step by step through the process of tuning any violin.

4390 BIBLE TRIVIA ($5)
Very thorough educational trivia game covering the following categories: Old Testament, New Testament, Prophets, Prophesy, True or False, Quotes, Bible Books and much more. One of our best programs, that you are sure to enjoy!

4391 MYSTERY SPELL ($3)
A unique word guessing game, great for spelling practice. Incorporates colorful graphics to enhance the users interest. You can use the extensive built-in vocabulary of words, or create your own word list.

4392 SNERTLE ($2)
Practice your addition, subtraction and multiplication with the help of Snertle the Turtle. Variable skill levels for pre-school
to elementary.

4393 CLIMBING MATH ($2)
Answer the basic math questions correctly, to allow your man to advance over the bridges and up the ladders. Remember, change of pace keeps a youngsters interest at peak.

4394 MONKEY BUSINESS ($3)
A learning program for teaching primary numbers from zero to nine. Excellent instructions and many options for the parent or teacher to set.

4395 BUGS BUNNY ($4)
This excellent program involves a combination of picture recognition and word association. The youngster must figure out what the picture displayed is, and enter the correct word for it. Motivating bunny graphics and numerous intricate pictures will keep the child's interest.

4396 WORD WORLD ($3)
This delightful vocabulary builder includes two modes: In the first mode, the computer goes through the list of words (house, tree, boat, plane, etc...) and requests the child to enter various attributes (color, speed, direction, etc...) before displaying them. In the other mode, the child may enter any of the words and attributes available and the computer will display them.

4397 FLAGS AND CAPITALS ($3)
Two programs that will increase your knowledge of the world. Choose the nation that you wish, and the computer will display the flag (including the crest if there is one) and indicate the capital city. Nice graphics and format.

4398 ZIP READ ($3)
Another excellent REMSOFT speed reading program. The computer flashes sentences of it's own construction on the screen for you to enter. Don't forget 4221 SPEEDER READER as well, when considering speed read programs.

4399 TYPE TIME ($2)
Practice your typing accuracy skills while keeping track of how fast you type. The computer maintains both your words per minute level and your accuracy level as you type in the given sentences.

4400 TYPO BLAST ($4)
Blast away at the invading letters! This is a very fun way to practice typing! Many options, including level of difficulty and one to four players. Two different TYPO BLAST programs included!

BUSINESS AND PERSONAL

5000 LOAN TREND ANALYSIS ($2)
For those interested in loans, this program of loan and interest options is a must. Computes the trend of the load, based on time series data.

5019 HOUSE COST ($2)
Are you going to build your own dream house? Well, this program will help you determine building cost.

5020 INVESTMENT CALC ($3)
Calculate: Future values, investment parameters, loan terms, loan balances, amortization schedules and eight different financial sets.

5023 STOCKS ($3)
The Black Scholes method for stock investment is utilized here to its greatest advantage.

5024 BONDS ($3)
Determine your bond yield to maturity with this wonderful program. A definite aid for those finding present and future values of bond holdings.

5047 INVESTMENT AIDS ($3)
Twenty separate routines to solve twenty investment questions. Play "what if?" with interest loans, savings, future value, payment sizes, depreciation, and many more.

5051 HANDICAPPER ($2)
Vastly improve your chances at the track with this analytical program. It examines up to five horses with entered data.

5052 CHRISTMAS CARD LIST ($2)
Sending Christmas cards is made easy with this specially designed data base system.

5053 BUDGETRON ($5)
Plan your household budget with this unique program. Manage your paycheck and you'll be on your way to a happier home! Printout option included.

5054 ELECTION FORECASTER ($3)
Project and predict the outcome of the elections with this excellent program.

5061 NUTRITION ($3)
Your computer is your new dietitian. Food type and quantity is inputted and calories with nutritional value is the output.

5062 MODEL ROCKET ($2)
Design your model rocket, then use this analytical program to determine if your design will work. Also useful to make existing designs more efficient.

5063 FOOTBALL RATING ($3)
Football buffs will undoubtedly enjoy this rating system for both college and professional football.

5064 BOWLING TEAM ($3)
Store the weekly scores, team summary, and members. Recalling information is a snap.

5065 SMOKER'S TEST ($2)
Why do you think you smoke? Honest answers to difficult question are what's in store from this self assessment program.

5066 FAMILY TREE ($4)
Keep track of your family tree with this well written program. Includes many advanced data base features.

5067 COOKIE FILE ($2)
Fifteen recipes are offered here for you to bake. Change the ingredients and invent your own cookies too!

5068 HEALTH TEST ($2)
Based on governmental statistics, this health examination may just prove to be a life saver.

5072 GOLF HANDICAPPING ($2)
Course ratings and previous scores are used to determine a handicap based on the official U.S.G.A. rules.

5076 CALORIE CALCULATOR ($2)
Keep account of those calories with this excellent diet aid.

5078 DIET RIGHT ($3)
A must for health minded people. Daily nutritional needs, required nutritional intake and nutritional qualities of food are presented.

5082 ADDRESS/PHONE ($2)
An excellent program with search capabilities and many frills. You'll always be a hero when you never forget your loved ones birthday.

5083 HOUSE INVENTORY LIST ($2)
Keep track of your house and everything in it. Use serial number, model number, price and date of purchase for the records. Easy to edit and update.

5085 CHESS RATING ($2)
A very thorough chess club rating program. You'll keep the best records with up to date information and analysis.

5089 BOWLING RECORDS ($2)
Another specially designed data base management system. A must for the serious bowler.

5093 CRITICISM ($2)
How well can you accept criticism? Find out more about yourself with this very interesting program.

5098 ELIZA ($3)
This conversational program will probe your mind as you ask Eliza questions and she responds. A terrific program when you desire someone to chatter with.

5100 MASTER OF HORRORS ($2)
An analytical survey of Stephen King's works. Contains sounds and graphics that help make this program enjoyable for all King fans.

5103 HEART ATTACK RISK ($2)
Save your own life with this informative program that asks you a series of questions on your medical conditions and everyday habits.

5106 PARTY BRIDGE ($2)
For those who adore playing bridge, this is a must. This helpful program will give total scores all the way up to ten rounds.

5109 GUITAR TUNING ($3)
Having difficulties when tuning your guitar? Your problems are over, thanks to this wonderful program which you may use to tune your guitar or ukulele.

5111 JEWISH HOLIDAY ($2)
All major Jewish holiday dates are given from 1979 to 1999, as well as the meaning of each holiday.

5117 LIFE EXPECTANCY ($2)
How long are you going to live? Find out with this program.

5200 ELECTION PREDICTION ($3)
By entering actual election returns, the computer will attempt to predict final victory.

5202 CONSTELLATION ($3)
A menu of 24 constellations are available to be shown where they appear in the night sky. Reference to star brightness and direction are also shown.

5203 QUILT ($2)
Design simple quilting patterns with this informative program.

5204 APPOINTMENT ($3)
An excellent appointment calendar and data base program for busy people.

5205 WEATHER FORECASTER ($5)
A sophisticated, menu driven program. You'll almost be a pro, as many aspects of scientific forecasting are utilized.

5300 ZODIAC ($5)
Gives a general horoscope, the astrological data pertaining to your birthday and information when your next good luck period will occur. Information is derived from calculations, no random factors involved. Also supplies historical information related to your birthdate.

5301 MICRO BARTENDER ($3)
Includes recipes and graphical depictions for popular drinks including the correct glass to use and garnish. Search capability allows you to determine what drinks you can make with the ingredients you have.

5302 TAX ESTIMATOR ($2)
A neat program that allows you to prepare and store your income tax data. An excellent help.

5304 HOME BUDGET ($3)
One of our most popular programs that allows you to computerize your home budget.

5305 INVESTMENT TRACKER ($3)
Track stocks, bonds and money market funds with this fine program.

5306 PERSONAL PROPERTY ($3)
This record keeping program allows you to store pertinent information in an organized fashion.

5307 MAILING LIST ($3)
Maintain your mailing list files with this excellent program.

5308 I.R.A. ($2)
Maintain your tax sheltered retirement accounts with this neat program. Invaluable!

5310 LEARNING CURVE ($3)
A functional program that allows you to input data to formulate the learning curve to analyze business activity.

5311 DATA ANALYZER ($4)
A sophisticated program that allows you to enter, modify, save, analyze and view data through several formats including bar graphs.

5314 SELF EVALUATION ($2)
Evaluate your personal characteristics to help determine your cardiac risk factor.

5315 SAVINGS & LOAN ($2)
Keep track of your money matters - loans, savings and interest with this nice program.

5316 QUILT II ($3)
An excellent design program allowing you to visualize and manipulate colorful patterns.

5319 BAR GRAPH BIORHYTHM ($2)
Using bar graphs, this program allows you to quickly scan many months.

5320 SINE WAVE BIORHYTHM ($3)
Peaks and valleys are displayed in sine wave form. Gives the average of your cycles. Printer option.

5323 APPOINTMENT CALENDAR ($2)
Designed for Epson and Epson compatible printers.

5324 BIG CALENDAR ($2)
Designed for Epson and Epson compatible printers.

5326 YEAR CALENDAR ($2)
Designed for Epson and Epson compatible printers.

5327 MEDIUM CALENDAR ($2)
Designed for Epson and Epson compatible printers.

5328 SMALL CALENDAR ($2)
Designed for Epson and Epson compatible printers.

5329 MINI CALENDAR ($2)
Designed for Epson and Epson compatible printers.

5330 ELECTRONIC CARD TRIX ($5)
A set of programs designed to help you create and edit an inventory of file cards containing thoughts, book references, recipes etc.

5331 ARTICLE FILE ($4)
An excellent program to help you keep track of important articles. Features include adding and deleting records, reading and editing, search and sort records and print.

5334 HOME CHECK PROCESSOR ($3)
Manage your checkbook, and maintain files with this indepth program.

5335 CREDIT CARD ($4)
A credit card data base system that will be invaluable in maintaining your finances. Includes analysis options too.

5336 REMSOFT LEDGER ($6)
A very complete general ledger system that will manage up to 100 accounts in several credit/debit categories.

5337 MONEY,MONEY,MONEY ($4)
Everything you wanted to know about money but were afraid to ask. Covers: Theory, loans, bank accounts, interest, annuities, payments, complex problems, etc.

5338 CYBER ABACUS ($2)
Toss out the old calculator, and replace it with this on-screen calculator for your Commodore. Does everything a scientific calculator will, and much more!

5339 EQUATION CALCULATOR ($4)
This super mathematical tool is designed to solve just about any equation or set of equations. Allows up to eight variables that can be assigned a value or formula plus the main equation. Includes ability to save/print information.

5340 FINANCIAL MANAGEMENT SERIES ($9)
Nine great programs to solve your finance problems. This series is designed to help you evaluate an investment or determine your budgetary requirements. With each program, simply enter the values that you are considering, and the computer provides the results. A hardcopy option is also available in all of the programs. The programs (5341 to 5349) are available as a series for $9, or may be obtained individually at $2 per program.

5341 COST OF CAPITAL
Helps you evaluate the combined cost of capital from various sources.

5342 FINANCIAL NEED
Estimate the amount of money required to reach a specific level of sales.

5343 VARIABLE CASH FLOWS
Computes the present and future values or the discount rate or the internal rate of return and compound interest rate for up to 120 variable cash flows.

5344 GROUPED CASH FLOWS
Computes the present and future values or the annual compound interest or discount rate percentage for up to 60 grouped cash flows.

5345 DEPRECIATION
Evaluate depreciation using three methods: Straight-line, declining balance, and sum of the years' digits.

5346 COMPOUND INTEREST
Solves for: The number of compounding periods, the annual nominal interest rate, the future value or the present value.

5347 ANNUITIES
Solves for: The annual interest rate, the periodic payment amount, the number of periodic payments, and the total annuity amount for both ordinary annuities and annuities due.

5348 AMORTIZATION SCHEDULE
Obtain a complete amortization schedule for a loan.

5349 DAYS BETWEEN DATES
Calculate the number of days between any two calendar dates. Useful for such things as figuring the amount of interest for a partial year or month, or performing calculations involving daily compounding.

5400 CALORIE COP ($3)
Different from other nutrition related programs, because the calculations are for energy (calorie) usage rather than caloric intake. Allows for a more efficient and healthy diet.

5500 FDA ($5)
Financial Decisions Analysis is a well written, well formatted program that will provide answers in the following areas: Ordinary Annuity, Annuity Past Value, Annuity Future Value, Sinking Fund and Compound Interest. Easy screen editing allows you to test a number of financial situations rapidly. Will provide answers for any of the parameters in each routine!

5501 MESSAGE GRAPHS ($3)
Allows you to design combination Message and Graph sequences. Many options, including Bar or Point Graphs, variable timing, complete save facilities, etc.

5502 GRADE BOOK ($5)
A rather extensive grade book program well suited for all elementary, middle, high school and college teachers. Yes, it's that complete! Full data file access, optional printer output, bar graph capability, etc.

5503 BREAK EVEN ANALYSIS ($4)
A management tool which aides in determining level of production, pricing and sales to achieve certain goals. Well organized program that includes excellent descriptions and overview of the concept as well as the versatile software to accomplish the tasks.

5504 NEEDLEPOINT CALC ($2)
Helps you calculate how much yarn you'll need to cover various types of needlepoint canvas. Many different options make this a very handy home helper.

5505 COUPON CATALOG ($4)
The nightmare of piles of unorganized coupons has ended at last! This specialized data base program covers everything needed for proper coupon organization and efficient file management. A must for every home!

5506 QUICK CALC ($5)
This spreadsheet program will come in very handy at home, hobby or even the office. Includes variable size matrix and many options for ease of use. Not exactly Microsoft Multiplan, but adequate for home, personal and small business applications. Nicely done.

TECHNICAL

7002 REGRESSION ($3)
In this program, such math functions as simple linear, multilinear, the DTN order, geometric and exponential regressions are covered.

7003 MOHR'S CIRCLE ($2)
Mechanical and civil engineers will find this program indispensable. It calculates the stress on shafts, beams and other vital members.

7006 AMP CIRCUIT ($2)
Input the closed loop gain and maximum frequency. Then see a circuit using 301A integrated circuit and specification on antenna designs.

7011 BLACK BODY ($2)
This program examines Planck's Black Body equations and also Simpson's rule in relation to radiant emitting of a band.

7012 MATRIX ($2)
When performing the Gauss-Jordan eliminations, this program allows you to manipulate the rows of a matrix.

7015 METRIC CONVERSION ($2)
Metrics made easy by this conversion figuring program! All metric functions are covered here.

7017 LINEAR REGRESSION ($2)
Linear regression programs have never been easier to use.

7020 TELESCOPE SPECS ($3)
By inputting data you can find telescope specifications as well as eye-piece requirements.

7027 SOIL CLASSIFICATION ($2)
Civil engineers, have your lab results of soil classified according to the Unified Classified System.

7028 CONCRETE CALC ($2)
Contractors and home builders, you will definitely consider this program useful for calculating cement jobs.

7029 FULL MOON ($2)
Compute the moon cycles for any year with this helpful guide.

7030 RECT/SUN ($2)
Rectangular coordinates of the sun are yours on any day, rain or shine.

7031 LOGIC SIMULATOR ($3)
This program simulates digital logic circuits. You input description of circuit and stimuli to uncommitted inputs. Then the computer will display the circuit actions in oscilloscope form.

7032 ELECTRONIC SOLUTION ($3)
This program computes the solution to such electrical problems as series and parallel circuits, dissipation and induction.

7033 ATOMIC WEIGHT FINDER ($2)
This program breaks down chemical compounds into their appropriate atomic weights. Excellent for chemistry students.

7035 DECIBELS ($2)
Voltage and power ratios are solved quickly and efficiently.

7036 ATTENUATOR DESIGN ($2)
This program will help you design T and TI attenuator networks. The circuit graphics are self-explanatory.

7037 CROSSOVER NETWORK ($2)
By entering speaker ohms and crossover frequencies the program will calculate inductor and capacitor values for a crossover network.

7038 CLOSED LOOP SYSTEM ($2)
Enter the known information and the program will do the rest! A perfect response in just a jiffy!

7039 COMET POSITION ($3)
By inputting the year and the day, this program will pinpoint the position of famous comets.

7041 CONVERSIONS ($2)
Does conversions on temperature, mass, length, volume, angles, energy and pressure.

7042 VECTOR ADD/SUB ($2)
Choose your unit of measurement as the program adds or subtracts vectors in either rectangle or polar form.

7045 QUEUING SIMULATOR ($3)
The dynamics of queuing are demonstrated using simulation. Choose the average arrival time and average service time for up to three channels.

7047 ONE-WAY ANOVA ($2)
This program is a one-way analysis of variance using Anova tables.

7048 TWO-WAY ANOVA ($2)
This program is a two-way analysis of variance with interaction based on two sets of classifications.

7051 BISECTION ($2)
Allows you to find the zeros of a function.

7053 PHOTOELECTRIC ($2)
Determine the critical wave length at which the phenomena of no electrons are emitted from a metal surface.

7054 POLYHEDRA ($2)
Compute the coordinates of regular polyhedras.

7055 POLYNOMIAL ($2)
Compute the definite integral of a polynomial, a rational polynomial or the area surrounded by two polynomials.

7056 FILTER DESIGN ($2)
This program will assist in designing second-order multi-feedback bandpass active filters. . Including a schematic option.

7058 SPEARMAN'S ($2)
Calculate the Spearman correlation coefficient with ties or no rank ties.

7059 WEATHER FORECASTER ($3)
Would you like to have your very own weather forecaster? Now, you can with this informative program that was adapted from the U.S. Weather Bureau table, based on average conditions over the U.S.

7060 CALCULATOR ($3)
Will help you compute everything from addition to reciprocals to factorials.

7061 U.S. ATMOSPHERE ($2)
A very interesting program that displays the pressure, height and temperature of any given value.

7062 ATMOSPHERE CALC ($2)
Calculate dewpoint, vapor pressure and relative humidity. These and other questions pertaining to atmosphere will be answered in this program.

7063 CHI-SQUARE ($3)
Commonly used as a statistical test with wide applications in both business and science by checking

deviation in data.

7064 DISTRIBUTION ($2)
Choose the distribution you desire and the computer will plot the output data on a graph.

7065 EQUATIONS ($2)
A very useful program that solves up to ten simultaneous quadratic equations by Gauss Elimination.

7066 FACTORIAL ($2)
This useful program will solve and calculate factorials of numbers up to 100,000.

7067 THREE POINTS CIRCLE ($2)
A helpful program for students as well as civil engineers. Uses advanced algorithms for precision results.

7068 BICYCLE ($2)
Calculate the ratios of 5, 10, 12, 15 or 18 speed bicycles. It will definitely prove useful in upgrading the current gearing of a bicycle.

7071 SECTION PROPERTIES ($2)
Students and engineers, a program that figures area, neutral axis distance and much more.

7072 SUNNY DAYS ($3)
Discover the time at which sunrises, sunsets, dawn and dusk occurred during the latter part of the 20th century. A very interesting and useful program, especially for meteorologists.

7073 DISTRIBUTION ($3)
This excellent program helps you investigate six major families of statistical distribution by choosing the distribution you want. Your computer will select the sample by using the random number generator and then plot the actual frequency distribution.

7074 STRUCTURAL PROPERTIES ($2)
Civil engineers will find this unique program particularly beneficial. It determines the structural properties of individual members.

7076 SATELLITE TRACKING ($3)
Enter in the longitudinal and latitudinal coordinates and the computer will provide the azimuth, elevation, and distance from you to an orbiting satellite.

7080 ANTENNA LENGTH ($2)
Find the correct length of an antenna by any frequency whether for T.V., radio or transmitter.

7104 IC 555 TIMER ($2)
Two times mode are available: (1) monostable and (2) astable.

7108 MATRIX II ($2)
This program computes determinants of a matrix including 2 x 2, 3 x 3 and 4 x 4.

7109 MINI MUFF ($2)
Calculate and display usable frequencies for communications between different points of the globe.

7110 MOON WATCH ($2)
Supply the date and you receive all kinds of information about the Moon.

7111 OIL WELL CASINGS ($2)
Design various diameter oil well casings.

7112 PARABOLIC REFLECTOR ($2)
Design your own parabolic reflector.

7113 STATISTICAL PARAMETERS ($2)
An excellent multi-purpose program for statistical analysis including chi-squares, permutations, standard statistics, etc.

7114 PIPING SYSTEMS ($2)
Calculates compressible and incompressible pressure flow. A general systems analysis.

7115 PLANET WATCH ($2)
Calculates position, phase, distance, angular size and magnitude of any planet in our solar system.

7116 WIND CHILL FACTOR ($2)
This program will compute the temperature of the air that touches your unprotected skin.

7118 3-D CURVE ($2)
Compute 2 and 3D curves.\par

7119 ASTRONOMY CONVERSION ($3)
An indepth conversion program for people who enjoy astronomy. Really nice!

7120 BINOMIAL ($2)
A two sample test based upon binomial distribution.

7121 BORE ($2)
A program to compute the orifice diameter for a specified pressure drop in a given liquid pipe flow.

7123 REGULATOR ($2)
Compute 3 terminal adjustable regulators.

7125 VOLTAGE ($2)
This program is used to find voltage regulation for alternators or transformers.

7200 THREE BODY ORBIT ($2)
Enter the data (mass, distance, speed) for three orbital bodies and watch as the computer displays their motion. Excellent physics program.

7201 SUNNY ($2)
This program gives the sunrise, sunset and twilight (astronomical, nautical and civil) for any location.

7202 DEGREE-DAYS ($3)
An excellent program to help compute degree = days which constitute the bases for fuel consumption and cost.

7203 RADIO FREQUENCIES ($2)
This program gives the maximum usable frequency for radio communication. It also computes distance and bearing.

7204 WALD-WOLFOWITZ TEST ($3)
An indepth program that tests the hypothesis for random sampling and identical distributions.

7206 RAVIV TEST ($3)
An indepth program involving a non-parametric test for comparing two non-independent distributions.

7207 STATISTICS SERIES ($6)
Seven excellent statistics programs as listed below for the super low price of $6. That comes out to less than one dollar a program!

TWO WAY ANOVA
THREE WAY ANOVA
RANDOM BLOCK ANOVA
RANDOM BLOCK FACTORIAL
SPLIT PLOT ANOVA
SPLIT PLOT FACTORIAL P.Q

SPLIT PLOT FACTORIAL P.QR

7215 QUAD ANTENNA ($2)
A custom design for cubical quad antenna.

7216 AVERAGES ($2)
Calculate moving averages from time series data.

7217 CIRCLE ($2)
Calculate great circle distance and bearing.

7218 INTERMODULATION ($3)
Calculate the possible mixing components 4 radio transmissions.

7219 KRUSKAL-WALLIS TEST ($2)
Deals with the population distribution function of several independent samples.

7220 LENSES ($2)
Deals with obliquely crossed cylinder lenses.

7221 LINEAR PROGRAMMING ($2)
Solves small linear programming problems with the simplex method.

7222 MED CALC ($4)
Includes an electrophorisis program, urine calculation program, hematology program and curve program.

7223 EQUATION PAC ($3)
Includes determinant of a 3X3 matrix, quadratic equations, synthetic division and zero location rising bisection.

7224 RECTIFIER ($2)
Power supply design, full wave bridge rectifier.

7225 RESISTOR ($2)
Single transistor switching circuit design.

7226 TRIG ($4)
Allows you to compute: sin, cos, tan, cot, sec, csc and the arc relations of such as well as unknown angles and sides.

7227 T.V. FREQUENCY ($2)
Computes frequency ranges, the various carrier frequencies and the oscillator and image for all T.V. stations.

7228 VOLTAGE ($2)
Allows you to calculate voltage with four different types of wiring.

7229 WAVE ($3)
Includes the following calculations: VSWR, return loss, mismatch loss and wave length.

7230 GRUBBS TEST ($2)
Tests the concept of the largest or smallest of an observed sampling is an outlier.

7231 PNEUMATIC ($2)
Figures the temperatures and pressures for building pneumatic control sensors.

7234 SOLAR INTENSITY ($3)
Computes solar azimuth, altitude and intensity of direct solar beam and much more.

7235 STAT PAC ($3)
Includes 6 functions as follows: significance of mean, difference between means, test for trends & associations, mean and variance, and finding a foreigner.

7236 HI RES PLOT ($3)
Plots the x,y coordinates of the formula you choose.

7237 STRUCTURAL SERIES ($9)
An indepth series of 5 programs priced at only $9 or as individually priced below.

7238 FOUR SPAN ($3)
Determines the final bending moments for a continuous beam, etc.

7239 CONCRETE BEAM ($3)
Determines the resistant moment and steel area required.

7240 DYNAMIC LOADING ($3)
Determines the elastic response of a single degree of freedom system.

7241 MOMENT OF INERTIA ($3)
Determines centroid and moment of inertia.

7242 TRUSSES ($3)
Determines Warren, Howe and Prat truss solutions.

7243 ELECTRICAL SERIES ($9)
An indepth series of four invaluable programs for the engineering mind. $9 for the series or as individually priced below.

7244 FILTER DESIGN ($3)
Allows you to compute low pass, high pass, band pass, butterworth and tchebychaff.

7245 PHASE LOCKED LOOP ($3)
Allows you to compute active and passive filters.

7246 ROOT LOCUS ($3)
Allows you to compute asymptote intersections as various angles.

7247 SMITH CHART ($3)
Allows you to calculate using the Smith Chart method.

7248 CORRELATION ($2)
Easy to use program that analyzes lists of numerical data pairs and provides correlation statistics.

7249 RANDOMNESS ($2)
Useful for determining whether some event or result is purely random, or if it is arranged in some sort of pattern.

7250 OVERLAND FLOW ($3)
Invaluable engineering program that which computes a hydrograph from information input.

7251 PLANET POSITION ($3)
Computes planet positions in both heliocentric and geocentric coordinate systems.

7252 X-Y DATA PLOT ($3)
Allows you to plot data and graph parametric equations.

7253 TRUTH TABLE ($2)
Creates a full truth table for any boolean expression of up to 26 variables.

7254 COILS ($3)
This program gives the number of layers, turns, current and wire size for multi-layer air core coils from required inductance.

7255 SCHEMATIC BEAM ($2)
Graphic representation of a concrete beam cross section.

7256 CENTER OF GRAVITY ($3)
Provides location of center of gravity and weight of a static structure of unlimited complexity.

7257 BEAM LOAD ($4)
Deals with Cantilever beams, simply supported beams, fixed beams and propped cantilever beams. Allows concentrated, distributed and concentrated moment loading. Thorough stats provided.

7258 FLUID POWER ($4)
Include: Rules of thumb; Cylinder force, speed, volume, flow; Oil velocity; Pump input & output; fluid motor power.

7259 OPTIMUM ($2)
Uses the Hungarian algorithm to determine the optimum assignment for each resource and activity.

7260 ACTIVE FILTERS ($4)
Computes resistor and capacitor values for active filters using Butterworth 3rd Order -18DB per octave type.

7261 BINOMIAL ($2)
Includes the SIGN TEST and the MC NEMAR TEST, based on binomial distribution.

7262 WILCOXIN TEST ($3)
Allows one sample and matched pairs test using the Wilcoxin Signed Ranks Tests.

7263 MANN WHITNEY TEST ($3)
Tests the concept that the distribution of two random samples are identical or different in a special direction.

7264 LILLIEFORS TEST ($3)
Test for unspecified exponential distribution.

7265 REACTOR KINETICS ($5)
Solves numerous Reactor Kinetics problems. Including: Period; Start up rate; Reactivity; Power Control; Keff; etc.

7266 CALL SIGN ($2)
Will give you the DX bearing, call signs and country for most locations in the world.

7267 ERROR ($3)
Will determine the error of closure for a given traverse. The area is determined by the D.M.D. method.

7268 ELECTRICAL FAULT CURRENT ($2)
Provides a point-to-point method for short circuit calculation; 3 phase.

7269 POWER ($2)
Compute: Power supply filter; Zener power supply.

7270 ELLIPTICAL ORBITS ($3)
This program will compute the position of any minor planet given it's orbital elements and the date in question. The R.A. and DEC. will be displayed as well as the distance to the sun and the earth.

7271 JUPITER'S MOONS ($3)
The computer will indicate the positions of Jupiter's moons for any time and location on Earth. Includes graphical depiction of their relative locations and allows you to visualize hourly updates in the positions.

7272 PARABOLIC ORBITS ($3)
This program will compute the geocentric coordinates of any comet given it's orbital elements. Great for astronomy enthusiasts and students.

7273 SKYSCAPE ($4)
Provides very extensive information on the Earth and other planetary bodies. Results are based on date and location information entered. Information provided includes location of planetary bodies and other significant statistics.

7274 TEMP/HUMIDITY INDEX ($4)
Different combinations of heat and moisture in the air cause different levels of comfort or discomfort. From information input, the computer will indicate the comfort zone, based on the Temperature Humidity Index.

7275 QUICK CONVERT ($2)
Simple yet handy program, will convert to and from binary, hexadecimal, decimal and signed decimal.

7276 SUPER CONVERT ($4)
Extensive program that will convert in the following areas: Temperature, time, mass, length, area, volume, speed, acceleration, density, force, pressure, power, energy and numerical prefixes.

7277 LAB CALC ($3)
Calculate the following: Regression; Averages and Errors; % Inhibition; % Response; Gravitational Force; Radioactive Decay; Platelet Coulter Counts; Ultrafiltration Model.

7278 PEPTIDE HPLC ($2)
Calculates the retention times of peptides on HPLC columns.

7279 PROTEIN PREDICT ($2)
This program will predict the secondary structure of a protein from it's amino-acid sequence.
